

Claims 10, 11 and 12, line 1 of each; delete "or A'".

Claims 10, 11 and 12, line 2 of each; replace "any one of Claims 1-9" by -- Claim 1 --.

Claim 15, line 1; replace "claim 13 or 14" by -- Claim 13 --.

Please add the following claims:

The crystal
-- 16. Modification A' of the compound 1-(2,6-difluorobenzyl)-1H-1,2,3-triazole-4-carboxamide, characterized in that it is identical to the modification A according to Claim 2 but has defects in the crystal lattice. --

The crystal
-- 17. Modification A' of the compound 1-(2,6-difluorobenzyl)-1H-1,2,3-triazole-4-carboxamide, characterized in that it is identical to the modification A according to Claim 3 but has defects in the crystal lattice. --

The crystal
-- 18. Modification A' of the compound 1-(2,6-difluorobenzyl)-1H-1,2,3-triazole-4-carboxamide, characterized in that it is identical to the modification A according to Claim 4 but has defects in the crystal lattice. --

The crystal
-- 19. Modification A' of the compound 1-(2,6-difluorobenzyl)-1H-1,2,3-triazole-4-carboxamide, characterized in that it is identical to the modification A according to Claim 5 but has defects in the crystal lattice. --

The crystal
-- 20. Modification A' of the compound 1-(2,6-difluorobenzyl)-1H-1,2,3-triazole-4-carboxamide, characterized in that it is identical to the modification A according to Claim 6 but has defects in the crystal lattice. --

The crystal
-- 21. Modification A' according to Claim 7 in essentially pure form. --

-- 22. Pharmaceutical preparations comprising the modification A' of the compound 1-(2,6-difluorobenzyl)-1H-1,2,3-triazole-4-carboxamide according to Claim 7 and pharmaceutically usable excipients and additives. --
